Bachelor's degree in Computer Science and Engineering

Skills

- **Languages & Frameworks:** React Native, JavaScript, Python, C++, C, Java, Django
- **Others:** Linux OS (Ubuntu, Arch Linux, Debian, Manjaro, Mint, Kali), MySQL, Canva, Figma, PostgreSQL, HTML, CSS, TailWind, Jassmin

Experience

EnPassant Chess Forum, ABESEC – President

- Oversaw the growth and operations of the chess club, organizing campus-wide tournaments, online events, and interactive workshops to advance the chess culture among students and staff.
- Led club initiatives, optimized event logistics, and directed resource management to maximize participation. Coordinated design and graphics efforts for digital engagement, improving club visibility, and promoting an inclusive environment.

ACM Student Chapter, ABESEC – Design Lead

- Led design and branding for club events, promotions, and digital content to enhance visibility and engagement.
- Collaborated with event teams to develop visual assets that support smooth execution and increased outreach.

Projects

AgriConnect – GitHub
AgriConnect is an innovative platform designed to bridge the gap between agricultural workers, land providers, and buyers in the agricultural sector.
Tools Used: HTML, CSS, JavaScript, Django, PostgreSQL, TailWind, Jazzmin

Dhan Saarthi – GitHub
A comprehensive Flutter application designed to simplify shared expense management. Whether you are splitting bills with roommates, managing group travel expenses, or organizing dinner costs with friends.
Tools Used: Dart, Swift, C++, JavaScript

Skill Bridge – GitHub
It revolutionizes the freelancing landscape by creating a trusted, AI-driven platform to verify skills, authenticate portfolios, and match freelancers to relevant projects, providing clients and freelancers with genuine assurance.
Tools Used: Typescript, Next.js, Razorpay

Achievements

- **2nd Runner-Up**, Shehmaat Solo Chess 2024
- **4th Place**, ABES CHESS CHAMPIONSHIP, 2025
